Grant Recipient	Grant Use	Grant Amount
Arlington, City of	\$79,283.00 for energy efficiency upgrades to the Public Works Administration and M&O buildings (lighting, HVAC and windows) \$1,582.00 for lighting upgrade to Fire Station #46 \$28,586.00 for lighting and HVAC upgrades to Fire Station #47 \$1,557.00 for lighting upgrades to City Hall \$22,096.00 for lighting and HVAC upgrades to the Cemetery office \$1,896.00 for lighting upgrades to the Wastewater Utilities office	\$135,000.00
Auburn, City of	\$25,000 for Greenhouse Gas Inventory \$47,100 for Electric Vehicle and Plug In Charging Station \$163,400 - Energy Efficient Field Lighting Replacement at Game Farm Park	\$235,500.00
Bainbridge Island, City of	\$100,000 for a energy efficiency financing/loan loss program \$26,000 for positive energy reports \$9,000 for an electric vehicle charging station	\$135,000.00
Bellevue, City of	\$107,000 for electric vehicle charging stations \$462,600 for replacing 90 fleet vehicles with hybrids \$60,000 for implementing Transportation Demand Management programs \$300,000 for recreation facility lighting retrofits \$185,000 for home energy reports \$145,800 for a sustainability web portal \$35,300 for administrative and consulting fees	\$1,295,700.00
Bonney Lake, City of	\$67,991 for a Variable Frequency Drive (VFD) retrofit project to increase energy efficiency at pump stations \$17,209 for a Public Safety Building lighting retrofit project	\$85,200.00
Bremerton, City of	\$37,708 for Puget Sound Navy Museum Window Upgrades \$80,610 for Indoor Lighting Upgrades in four City Buildings	\$118,318.00
Burien, City of	\$135,000 for an energy retrofit of a former King County library repurposed as a new community center (Variable Refrigerant Flow HVAC system and improved lighting)	\$135,000.00
Edgewood, City of	\$27,500 for Energy Efficiency and Conservation Strategy Development \$71,300 for Development and Implementation of Energy Efficient Transportation Zoning and Code Review \$31,500 for Commercial Energy Audits and Energy Efficiency Upgrade Funding Support	\$130,300.00
Edmonds, City of	\$4,498 for energy management software for city government computers \$23,118 for energy-efficient PC network servers \$3,611 for energy meters to support residential and commercial energy monitoring \$19,651 for an analysis and feasibility study to replace the Frances Anderson Cultural Center steam boiler heating system with ground source heat pumps or an alternative energy-efficient heating source \$81,567 to purchase seven hybrid vehicles \$27,755 to upgrade lighting at the Public Works facility	\$160,200.00
Enumclaw, City of	\$35,000 for technical consulting services to perform energy usage audits on city buildings \$100,000 for implementation of those retrofits	\$135,000.00

*Contains 34 of the 41 local jurisdictions that received EECBG funds. For more information, visit <http://prosperitypartnership.org/recovery.htm>

Grant Recipient	Grant Use	Grant Amount
Everett, City of	\$51,700 to develop an energy conservation strategy \$100,000 to weatherize low income homes \$76,773 for a lighting upgrade of the main library \$79,348 for a lighting upgrade at four parks/ballfields \$34,415 for a lighting upgrade of service center buildings \$93,195 for service center HVAC replacement \$40,593 for a lighting upgrade of the Everpark Garage \$10,628 for a lighting upgrade of the Everett Performing Arts Theatre \$20,046 for a lighting upgrade of the wastewater plant \$7,302 for a lighting upgrade of the fire administration building \$137,900 to purchase compacting trash receptacles to reduce trash-truck driving \$200,000 for Community Energy Challenge grants \$112,500 for pump replacement for wastewater plant \$81,000 for HVAC Replacement for police headquarters	\$1,045,400.00
Federal Way, City of	\$100,000 for implementation of the its Energy Efficiency/Renewable Energy Strategy	\$100,000.00
Granite Falls, City of	\$16,400.96 for windows at City Hall \$5,006 for lighting at City Hall \$2,940.96 for lighting at Police Department	\$24,347.00
Issaquah, City of	\$39,260 for Residential Energy Efficiency - home energy reports and educational activities \$32,500 for a Sustainable Energy Plan \$30,500 for Municipal Energy Efficiency Assessments and Implementation \$32,740 for Streetlight retrofits	\$135,000.00
Kent, City of	\$845,400 for HVAC replacement for the Centennial Building	\$845,400.00
Kirkland, City of	\$60,000 for converting City Hall parking lot lights to LED \$67,500 to convert traffic signals to LED \$24,000 to replace single-pane windows at Fire Station 27 \$60,000 for the Positive Energy Program to provide energy reporting for residential customers	\$211,500.00
Marysville, City of	\$25,137.00 for Public Safety Building lighting retrofit \$5,882.00 for Boys and Girls Club lighting retrofit \$7,378.00 for Pedestrian Display retrofit \$46,092.00 for LED Street Light retrofit	\$84,489.00
Mercer Island, City of	\$37,500 for Home Energy Reports and Promotion of Residential Energy Conservation \$10,000 for Lighting Upgrade in Community Center at Mercer View Gym \$37,500 for Clean Mobility Pilot Project for Police Department (purchase of 2010 Toyota Highlander Hybrids and three E+ electric assist patrol bicycles) \$25,000 for five Plug-in Electrical Vehicle Charging Stations \$25,000 for Development of a Green Building Toolkit and a regional template for on line, green building permitting and review practices	\$135,000.00
Mill Creek, Monroe & Snohomish (Cities of)	\$120,840 for energy retrofits of 8 municipal buildings	\$120,840.00
Mountlake Terrace, City of	\$134,915 to establish and begin testing a methodology to: (a) integrate the development review process with promoting energy efficiencies as early in the process as possible; and (b) set energy targets for large mixed use centers in a manner that allows measurement of energy savings over time	\$134,915.00
Puyallup, City of	\$164,500.00 for two solar projects (on the Public Safety Building to provide the hot water to the jail and on the Pioneer Park Pavilion for power to be sold back to PSE)	\$164,500.00

*Contains 34 of the 41 local jurisdictions that received EECBG funds. For more information, visit <http://prosperitypartnership.org/recovery.htm>

Grant Recipient	Grant Use	Grant Amount
Redmond, City of	\$75,000 for Sustainability Initiative Website Development and Enhancement \$58,500 for Positive Energy Program - Home Energy Reports \$107,557 for Energy Efficiency Retrofits for Two Municipal Buildings \$10,000 for Replacement of Street Lights with LED fixtures \$20,943 for Overall Program Management, Project Enhancement, and Administrative Coordination	\$272,000.00
Renton, City of	\$95,827 for Positive Energy--Home Energy Reports \$51,608 for Traffic Signal Upgrades \$470,065 for Upgrades to the 200 Mill Ave S. building	\$617,500.00
Sammamish, City of	\$60,000 for 5 hybrid vehicles \$45,000 for the development of a city sustainability strategy \$20,000 for Home Energy Reports \$10,000 for city hall lighting upgrades	\$135,000.00
Seattle, City of	\$500,000 for Direct Install Program Management to oversee installation of CFLs, low-flow showerheads, and aerators in residences \$400,000 to develop an Energy Performance Score (EPS) to evaluate the energy performance of single-family and small-multi family dwellings \$1,500,000 to create a Residential Loan Program for energy efficiency upgrades \$450,000 to oversee implementation of an Energy Performance Disclosure requirement for commercial and large multi-family buildings to measure and report their energy performance \$750,000 for the Commercial Lighting Upgrade Program to hire and train staff to identify inefficient lighting fixtures in small to medium-sized commercial businesses and replace them with new efficient fixtures \$500,000 for the HomeWise Weatherization Program that will provide additional grant resources to low-income housing providers \$500,000 for Municipal Energy Audits of City of Seattle facilities. \$1,000,000 for LED Streetlights \$300,000 for Electric Trolley-Bus System Improvements	\$6,142,300.00
Shoreline, City of	\$386,732 for City Hall Projects (Occupancy Sensor Control for HVAC System, Day-lighting dimming ballasts for perimeter of the building, Bi-level stairway lighting, Visqueen Curtain for Server Racks and Additional Solar Voltaic Panels) \$45,000 for Visible Strategies "SEE-IT" Performance Indicator Display Interface \$5,000 for Service Contract with Solar Shoreline Project (SSP)/Shoreline Chamber of Commerce for 2010 North King County Green Business Conference \$36,068 for 4 LED Streetlights and Accompanying Solar Panels to Provide Energy Off-set	\$472,800.00
Steilacoom, Town of	\$14,567 for lighting retrofits for the Public Works, Public Safety and Community Center buildings \$17,395 for high performance glazing retrofits of the Public Works and Community Center buildings \$103,038 for High efficiency HVAC retrofits of the Public Works, Public Safety, Community Center, Town Hall and Administration buildings	\$135,000.00
Tacoma, City of	\$250,000 for HVAC replacement at HQ Fire Station One \$450,000 for woodstove changeout/weatherization \$200,000 for traffic signal LED \$300,000 for Metro Parks' Community Center Energy Upgrades (South End & People's) \$500,000 for Going for the Bronze as a Bike Friendly City-the 5 E's: Evaluation, Education, Enforcement, Engineering and Encouragement. 80% of budget for Engineering (facilities and amenities) and 20% of budget for Education and Encouragement. \$150,000 for Phase II of Growth & Transportation Efficiency Center-Downtown: On the Go! \$45,000 for Businesses for an Environmentally Sustainable Tacoma-Citizens for a Healthy Bay \$40,000 for Tacoma Alliance for Clean Technology and Sustainability-Chamber of Commerce \$12,000 for Sustainable Connections Consulting	\$1,947,300.00
